Fully Automatic Brazing Machine

高周波を利用した全自動ろう付け機
利用高周波的全自动焊接机

Technical feature

- Additional 3 Servo Motors helps increase the production speed up to 15~20%.
- User friendly touch screen in x, y, z motion.
- Specially designed for brazing Cermet tips for Cold Saw or Dry cutting Saw.
- Fully automated high frequency induction with intergrated loading system.
- Programmable & savable memory sys. for easy recall of saw set up information.
- Tight tolerance from tip to tip and high brazing strength.
- Fast brazing and easy programming of individual processes.
- Reinforced heavy frame to minimize the vibration during the operation.
- Specially designed for brazing Cermet tips for Cold Saw or Dry cutting Saw.
- Pre-tinned tips applicable.
- Automatic Aneling System.
