

# asb-350 Micro Drill Brazing Machine

Micro Drill 自動ろう付け機  
Micro Drill 自动焊接机

## Technical feature

- With 5 Servo Motors allows faster and accurate production.
- Linear Feeding and Vertical Brazing system.
- Automatic self test by intergrated load cell.
- Specially designed for brazing Micro Drills in mass production.
- Fully automated high frequency induction with intergrated testing system.
- Programmable & savable memory sys. for easy recall.
- Tight tolerance from tip to shank and high brazing strength.
- Fast brazing and easy programming of individual processes.
- Reinforced heavy frame to minimize the vibration during the operation.
